OBJECTIVE

B.Sc. graduate seeking an entry-level Data Analyst role with hands-on project experience in Excel, SQL, Python, Pandas, NumPy, and Power BI. Skilled in data cleaning, exploratory data analysis, SQL querying, KPI reporting, dashboard development, and data visualization. Strong analytical and problem-solving skills with a focus on converting raw data into actionable business insights.

SKILLS

Technical Skills: Python, SQL, Excel, Power BI, Git, GitHub

EDUCATION

B.Sc. (MPC) — Dr. B. R. Ambedkar University 2023 – 2025

Data Analyst & Data Scientist — SkillIt Academy 2025 – 2026

PROJECTS

Netflix Data Analysis using Python github.com/pailaravi102-cpu/Netflix-Data-Analysis

Python, Pandas, Jupyter Notebook, Google Colab

- Handled missing values in the dataset.
- Compared Movies and TV Shows in the United States.
- Analyzed movie ratings.

Sales Data Analysis using MySQL github.com/pailaravi102-cpu/SQL-Sales-Data-Analysis

MySQL Workbench

- Retrieved and filtered records from database tables.
- Summarized sales and other measures using aggregate functions.
- Combined related information using joins.
- Answered analytical questions using subqueries and CTEs.
- Used ranking and window functions to calculate running totals and compare performance.
- Presented query results that support data-driven insights.

Retail Sales Data Analysis using Microsoft Excel github.com/pailaravi102-cpu/Excel-Sales-Analysis

Microsoft Excel

- Turned raw retail sales records into useful business information.
- Analyzed where sales are coming from and which product categories and products contribute most.
- Examined how profit varies across regions and categories, and where loss-making transactions may need attention.

HR Dashboard using Power BI github.com/pailaravi102-cpu/HR-Analytics-Dashboard

Microsoft Power BI

- Measured total employees, active employees, attrition count and attrition rate.
- Explored employee distribution by age group, department and job role.
- Compared attrition across departments, job roles and overtime status.
